

PUBLIC NOTICE

FAKE SOCIAL MEDIA POST ALERT

Harare, 13 October 2025

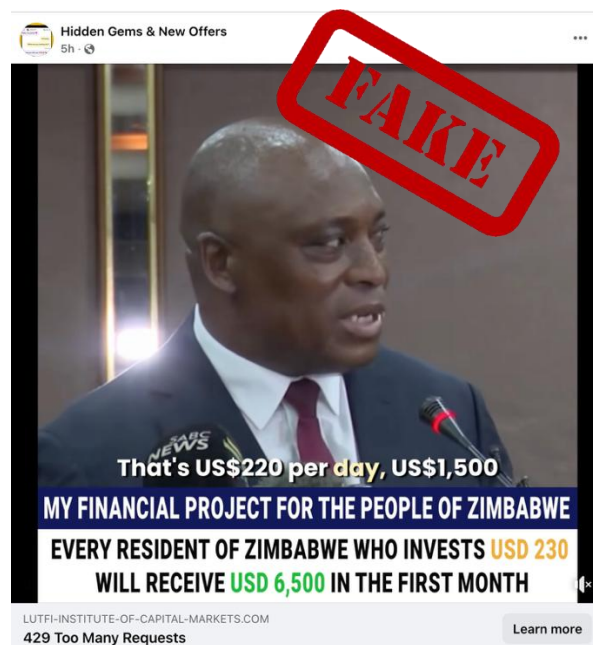

The Reserve Bank of Zimbabwe (RBZ) dismisses a false social media post claiming that the Governor, Dr. John Mushayavanhu supports an initiative promising earnings of USD\$6,500 per month for Zimbabweans who open bank accounts with USD\$230. This is entirely a scam.

The misleading post uses an Artificial Intelligence-generated voice to impersonate Governor Dr. John Mushayavanhu, falsely presenting him as speaking in an interview with SABC News and promoting a fictitious system that allegedly increases account balances automatically.

The RBZ has reported these fake accounts and urges the public to remain vigilant and avoid engaging with the post and any such get rich quick initiatives.
