

17 January 2020

**Financial Markets Division - National Payment Systems
CIRCULAR TO PAYMENT SYSTEMS PROVIDERS
AND PARTICIPANTS**

Geolocation of Access Points and Devices

1. The Bank urges and encourages all financial institutions, payment system providers and other stakeholders in the financial services sector to provide geolocation of all access points and devices which include POS devices (including m-POS), ATMs, mobile banking agents, merchants, branches and bank agents.
2. Geolocation will entail the identification and publication of the exact real-world geographic locations of access points or devices.
3. In this regard, institutions are urged to update their Websites as well as other electronic platforms to make this information available to stakeholders on demand for the customers' convenience.

A handwritten signature in black ink, consisting of a large, stylized initial 'J' followed by a long, sweeping horizontal line.
